#### **Function:**

#### **OR-3 Percent Rejects**

#### Definition:

<u>Percent Rejects</u>: The percent of orders received (including supplements and re-submissions) by Bell Atlantic that are rejected or queried. (Orders that are queried are considered rejected.) Orders are rejected due to omission or error of required order information.

The percent reject measure is reported against all order submitted transactions processed in the Ordering Interface (DCAS or Request Manager), not just those with associated CRIS completions.

% Resubmission Rejection: The percent of PONs resubmitted at Bell Atlantic's request in relation to a Trouble Ticket which are rejected by Bell Atlantic's ordering systems and interfaces as being duplicative of PONs already in Bell Atlantic's systems.

Note: Edit Rejects – Orders failing "Basic front-end edits" are not placed on Completed PON Master File.

#### **Exclusions:**

BA Test Orders

#### Performance Standard:

OR-3-02: > 5% threshold for Special Provision.

	Total PONs resubmitted at Bell Atlantic's request in relation to a Trouble Ticket that are rejected by Bell Atlantic's systems as duplicative of PONs already in Bell Atlantic's systems.	Total PONs resubmitted at Bell Atlantic's request in relation to a Trouble Ticket.

<sup>&</sup>lt;sup>1</sup> Basic front-end edits – see Glossary to Carrier-to-Carrier Guidelines in Case 97-C-0139.

#### **OR-7 % Order Confirmation/Rejects Sent Within 3 Business Days**

The percent of Resale POTS and UNE Platform LSRs confirmed or rejected by BA within 3 business days of receipt as a percent of total LSRs received.

Note: This is a measure of completeness not timeliness.

Source: Master PON File.

- Canceled orders.
- LSRs that were Supplemented prior to confirmation or rejection.
- Edit Rejects (negative 997s) that would not be eligible for confirmation or rejection.

III.	MONTHLY REPORTS	3
IV.	REVIEWS, UPDATES AND AUDITS	3
V.	EXCEPTION PROCESS	3
VI.	TERM OF PLAN FOR THE CHANGE CONTROL PROCESS	4
VII.	FULLY INTEGRATED DOCUMENT	4
	APPENDIX A – Change Control Measures	

#### I. INTRODUCTION

The "Order Adopting Permanent Rule" in Case 97-C-0139 added three new metrics related to the Change Control Process to the Carrier-to-Carrier Guidelines. To ensure that New York Telephone Company, d/b/a Bell Atlantic - New York ("BA-NY"), will execute the Change Control process in an expeditious and non-discriminatory manner, BA-NY will undertake the actions set forth in this Change Control Assurance Plan (the "C.C.A.P.") after entry into the long distance market pursuant to Section 271 of the Telecommunications Act of 1996. A total of \$25 million in bill credits will be at risk to CLECs if BA-NY provides unsatisfactory service for the four measures in this Plan.

#### II. THE CHANGE CONTROL MEASURES AND BILL CREDITS

The following measures, which have been taken from the June Order, are included in this Plan:

1. PO-4-01: % Change Management Notices Sent on Time;

2. PO-4-03: Change Management Notice Delay 8 plus Days;

3. PO-6-01: % Software Validation; and

4. PO-7-04: Delay Hours - Failed/Rejected Test Transactions - No

Workaround.

In addition to PO-4 Timeliness of Change Management Notice, which was included in the Guidelines adopted by the Commission in February (see Case 97-C-0139, Proceeding on Motion of the Commission to Review Service Quality Standards for Telephone Companies, "Order Adopting Inter-Carrier Service Quality Guidelines" (issued February 16, 1999), the Commission adopted PO-5, Average Notification of Interface Outage, PO-6 Software Validation and PO-7 Software Problem Resolution Timeliness. (See Case 97-C-0139, Proceeding on Motion of the Commission to Review Service Quality Standards for Telephone Companies, "Order Establishing Permanent Rule" (issued June 30, 1999) (the "June Order"), Appendix at 8-12.

Attached hereto as Appendix A is a chart that provides the standards that will be applied to each of the above measures and the total amount of bill credits associated with each standard. If a performance measure is missed according to its standards, bill credits will be paid to all CLECs purchasing Unbundled Network Elements ("UNEs") or resold services. CLECs will receive bill credits on a prorated basis of the total credit determined using Appendix A based on their lines in service. This Plan will use the same mechanisms set forth in the Performance Assurance Plan for determining "lines in service." (See C.C.A.P. at 6, n.7.)

Under this Change Control Assurance Plan, BA-NY will retain the right to withdraw any proposed software release prior to the item being put into final production. If BA-NY exercises this right, it will not be deemed to have violated the requirements set forth in PO-4-01, PO-4-03, PO-6-01 or PO-7-04 and will not be subject to the payment of bill credits under those measures.

The initial amount of annual bill credits for all CLECs will be \$10 million under this Plan. If, however, the bill credits due to the CLECs under this Plan exceed \$10 million in any year,<sup>2</sup> an additional amount of \$15 million will be at risk from the bill credit amounts allocated to the Mode of Entry Categories in the Performance Assurance Plan. Thus, a total of \$25 million will be available for bill credits for the Change Control measures. Bill credit payments for Change Control measures will be given priority over bill credits for the MOE categories. (See P.A.P., Section II(B)(2).)

The Commission will have the authority to reallocate the monthly distribution of bill credits between and among any provisions of the P.A.P. and the C.C.A.P. The Commission will

\*\*\*

<sup>&</sup>lt;sup>2</sup> The "year" will be measured from the first day of BA-NY's entry into the interLATA market.

give the Company 15 days notice prior to the beginning of the month in which the reallocation will occur. Any reallocation will be done pursuant to Commission order.

#### III. MONTHLY REPORTS

Each month BA-NY will issue a report on its performance on the above measures to each CLEC providing service in New York.<sup>3</sup> The reports will be CLEC specific and will indicate the scores on the measures, the aggregate amount of bill credits, if any, that BA-NY must provide pursuant to the standards set forth in Appendix A, and the specific amount of bill credits that will appear on the individual CLEC's bill. All CLECs with multiple bill accounts must inform BA-NY as to which of their accounts should receive any bill credits for the Change Control measures.

#### IV. REVIEWS, UPDATES AND AUDITS

Biannual reviews and updates will occur under this Plan until the Commission determines otherwise. However, BA-NY, after consulting with Staff, may at any time recommend to the Commission modifications, additions, or deletions to the measures in this Plan or the bill credit allocations. CLECs and any other interested parties will be given an opportunity to provide comments on any recommendations. In addition, Staff will have the right from time to time, on 60-days notice to BA-NY, to conduct an audit of data reported in the monthly reports.<sup>4</sup>

#### V. EXCEPTION PROCESS

BA-NY will have the right to file a petition with the Commission seeking to have the standards contained in Appendix A waived or modified either for future or past periods. The

<sup>&</sup>lt;sup>3</sup> BA-NY's performance on the other Change Control metrics will be reported in the monthly C2C reports.

<sup>&</sup>lt;sup>4</sup> Unlike the most of the measures in the P.A.P., the recording of data for each of the measures in this Plan will be done manually.

Commission shall grant such a request if it determines that the application of one or more of the standards contained in Appendix A would not serve the public interest. The application of one or more parts of Appendix A would not serve the public interest if BA-NY could not, through any reasonable efforts, prevent results that do not satisfy the standards. BA-NY's petition must include all information that demonstrates how the measure was missed. It shall also include a recalculation of the measure with the challenged information excluded from the calculations. CLECs and other interested parties will be given an opportunity to respond to any BA-NY petition for an Exception. In the event the Commission rules in BA-NY's favor, BA-NY will have the right to offset any paid bill credits against any future bill credits that may come due for either the Change Control measures or Performance Assurance Plan measures.

#### VI. TERM OF PLAN FOR THE CHANGE CONTROL PROCESS

The Change Control Assurance Plan will have the same term as the Performance

Assurance Plan. It will remain in effect, as modified from time to time by the Commission, until
the Commission rescinds the Performance Assurance Plan or develops a replacement
mechanism.

#### VII. FULLY INTEGRATED DOCUMENT

The terms and provisions of this Plan are submitted in their entirety to the Commission for approval. This Plan represents a fully integrated statement of the commitments BA-NY will undertake, including the payment of bill credits for unsatisfactory performance under the measures. It is not offered to the Commission for approval on a piecemeal basis.

## APPENDIX A PAGE 1

#### **Change Control Performance Assurance Plan Measures**

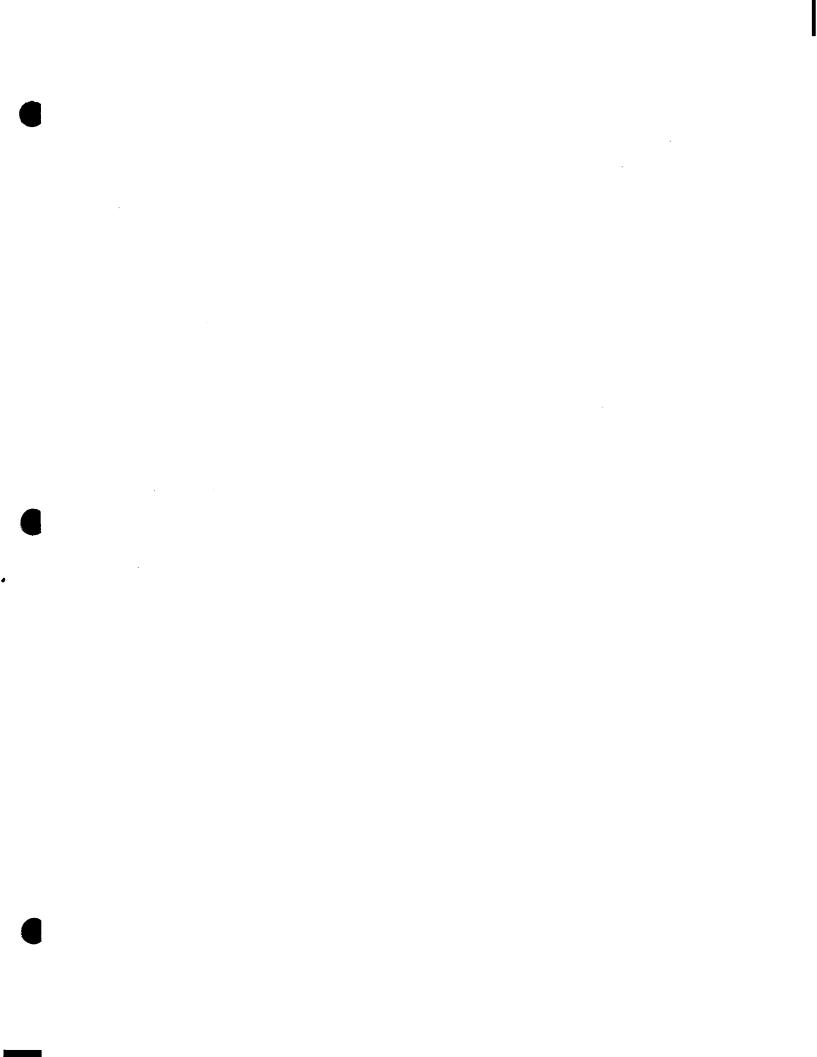

PO-4-01	% Change Management Notices Sent on Time	9						
	Performance Range (Notification and	≥ 95%	90 to 94.9%	< 90%				
•	Confirmation for Types 3, 4 and 5 only)							
	Performance Credit	\$0	\$250,000	\$500,000				
PO-4-03	Change Management Notice Delay 8 plus Day	s (Notification and C	Confirmation for Type	e 1, 2, 3, 4 and 5)				
	Performance Credit		\$25,000 per day					
PO-6-01	% Software Validation (See Note 1)							
,	Performance Range	≤ 5%	5.1 to 10%	> 10%				
	Performance Credit	\$0	\$100,000	\$1,000,000				
PO-7-04	Delay Hours – Failed/Rejected Test Transactions – No Workaround (See Note 2)							
	Performance Credit \$50,000 per day							
			Per Release					

Note 1: Measured against releases pursuant to Change Notice Types 3, 4

and 5.

Note 2: PO-7-04 applies to failed Test Deck items executed by BA-NY in

PO-6-01 and applies until all errors reported in PO-6-01 are fixed.

#### RESPONSE OF VERIZON MASSACHUSETTS TO MOTIONS FOR RECONSIDERATION OF PERFORMANCE ASSURANCE PLAN

Verizon Massachusetts ("Verizon MA") submits this response to the motions for clarification and reconsideration of AT&T and to the motion for reconsideration of Rhythm's Links, Inc. ("Rhythms") which seek review of certain aspects of the Department's decision of September 5, 2000, adopting a Performance Assurance Plan (the "PAP")<sup>1</sup> for Verizon MA (the "PAP Order") and the Department's subsequent approval of Verizon MA's compliance PAP. As discussed below, AT&T's and Rhythms' requests for reconsideration consist of little more than the repetition of claims previously made which the Department explicitly considered and rejected in the PAP Order. They provide no basis for reconsideration.

Likewise, AT&T's claim that Verizon MA failed to identify all differences between its proposed PAP and the New York PAP and that the Department was thereby misled in the *PAP Order* is without merit. Although Verizon MA's initial proposal and

The PAP is a self-executing remedy plan designed to prevent degradation in wholesale service quality provided to competing carriers after Verizon MA gains entry into the long-distance market pursuant to Section 271 of the Telecommunications Act of 1996. PAP Order at 1.

York PAP, the Department's rationale for using the New York PAP as a model is not affected by those minor differences. The few differences arose principally because of the timing of decisions and filings in Massachusetts and New York or mere oversight. Since the Department clearly expects that the Massachusetts PAP conform to the New York model, except where the Department specifically decides otherwise, Verizon MA is filing as Attachment A to this Response a revised PAP which eliminates minor differences noted by AT&T.<sup>2</sup> Verizon MA requests that the Department approve Attachment A.

#### I. INTRODUCTION

On March 28, 2000, the Department issued a Memorandum directing Verizon MA – and inviting other participants in this case – to file proposed comprehensive performance monitoring and enforcement plans. *See* March 28, 2000, Hearing Officers' Memorandum. Verizon MA, AT&T, and WorldCom filed proposed plans on April 25, 2000. A number of participants, including Rhythms, filed comments at that time. Verizon MA's proposed PAP was based on the plan adopted by the New York Public Service Commission and which the Federal Communications Commission ("FCC") found acceptable in ensuring that local telecommunications markets remain open after

In reviewing AT&T's claims, Verizon MA identified two differences between the Massachusetts and New York PAPs that AT&T does not mention. First, although comparable dollar amounts are at risk for Critical Measure No. 3 in relation to the respective caps, the New York plan spreads the dollars among seven metrics, while the Massachusetts compliance filing has a single metric. Second, Critical Measure No. 4b was eliminated and 4c was renumbered to "4b" to be consistent with the New York plan. Complex service addressed in the original 4b is now covered under Critical Measure No. 12, xDSL Performance. Verizon MA has made these changes in Attachment A. In addition, several typographical errors in the compliance filing have been corrected.
